

**FROMMM** | AIRPAD  
SYSTEMS

## AP100

### Compact airpad system

- Suitable for every work station
- Heavy duty design for continuous operation
- Modular setup for enhanced productivity

## AIRPAD AP100

FROMM's compact airpad device for all protective packaging needs

### Suitable for every work station

- Small footprint for easy integration
- Stand-alone or multiple operator configurations
- Ideal for decentralized packaging stations

### Designed for optimum ergonomics

- Fast learning and user-friendly operation
- Simple control panel
- Silent hopper operation
- Quick and easy film loading
- Rotating display for easy panel reading

### Modular setup for enhanced productivity

- Overhead hoppers and on-floor storage bins
- Automatic replenishment
- Foot switch operation
- Manual pad holder for easy dispensing
- Front and side embedded photocells for automatic use

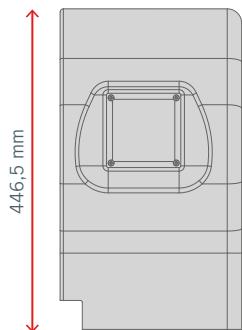

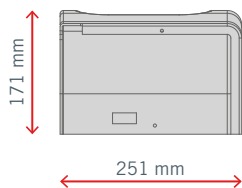

### FROMM technology

- Heavy duty design for continuous operation
- Efficient technical support
- End-of-the-line expertise

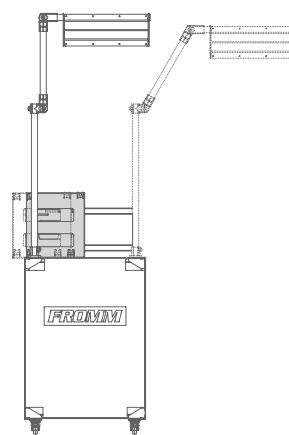

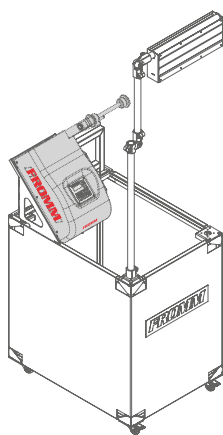

## AP100 Technical specifications

- Power supply: 90-240V-50/60Hz
- Weight: 11,4 kg (without options)
- Speed: 10-16 m/mn
- Film quality: PE
- Film width: 200 mm, 400 mm

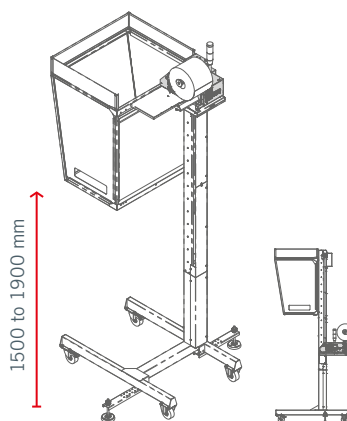

**AirPad AP100**  
code 50.2103

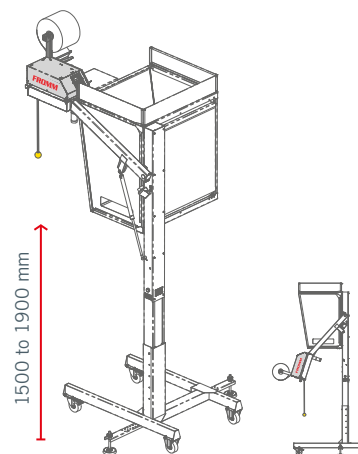

## Options

**Compact mobile bin with articulated arm and pad holder**  
code 50.2119

**Electric overhead dispensing system**  
code 50.2118

**Manual overhead dispensing system**  
code 50.2117

# The right film and the right pad

		 <b>Standard</b>	 <b>Strong</b>	 <b>Extra Strong</b>	 <b>Barrier</b>	 <b>Anti-Static</b>	 <b>Recycled</b>	 <b>Bio-based</b>
